Re: Inadequate As-Built Plans for Permanent Undisturbed Drainage Diversion., Mountain Coal Company, Gordon Creek #2, #7 and #8 Mine, ACT/007/016-AM99A, Folder #2, Carbon County, Utah

Dear Mr. Hansen:

During July 1999, the permanent undisturbed drainage diversion at the Gordon Creek 2, 7, & 8 mine were reconstructed. The Division has attempted for quite some time to procure as-built designs for this diversion and at the present time we still do not have accurate plans for the mine. We are aware that some as-built plans were submitted with a Phase I bond release application but they were returned due to logistics problems. In order to get the Gordon Creek plans up to date, as-built plans are still required.

The enclosed technical memo discusses the situation and provides guidance as to what is needed. Please review it carefully. The as-built designs should be submitted independent of any other application. Please provide them by no later than October 22, 1999 with the required C1 and C2 forms.

If you have any questions, please call me or David Darby.

Sincerely,

A handwritten signature in dark ink that reads 'Daron R. Haddock'.

Daron R. Haddock
Permit Supervisor
